SoundOff Signal, headquartered in Hudsonville, Michigan, is a global leader in vehicle lighting, control systems and electronic warning solutions for the emergency, amber and government markets.

As an employee-owned company (ESOP), we are driven by a commitment to innovation, quality and seamless system integration to enhance safety and communication. With over 500 employees designing and manufacturing products on-site, SoundOff ensures superior performance and reliability.

Through cutting-edge solutions tailored to customer needs, SoundOff Signal empowers first responders and professionals worldwide, helping them serve and protect with greater visibility and efficiency.

## HOW TO USE THIS CATALOG

Welcome to our product catalog, your gateway to exploring the diverse range of solutions we offer. This catalog provides a comprehensive overview of our main products, although it may not include every accessory or service part we carry. For a complete selection and detailed product information, including configurability options, please visit us at [soundoffsignal.com](http://soundoffsignal.com). Many of our products are designed to be customized to meet your specific needs, so we encourage you to use our online configurator to ensure you find the perfect match for your requirements.

If you have any questions or need help with an order, please contact us at **1-800-338-7337** or submit the contact us form on our website.

## HOW TO CONFIGURE A PRODUCT

Scan the QR code located at the bottom of each page or visit [soundoffsignal.com](http://soundoffsignal.com)

Log in (top right-hand corner)

In the navigation bar, hover over “Support”, click on “Product Configurator” and choose the specific product you would like to configure. You can also visit a specific product’s webpage and click the “Configure Product” button.

Navigate through the process and choose the selections that fit your needs

Save your newly configured product to an existing quote, or create a new quote

## Certifications

General product certifications can be found throughout this catalog. For additional certification details on lightbars and perimeter lighting, please visit the resource tab on the product’s web page at [soundoffsignal.com](http://soundoffsignal.com). Certifications are identified for properly configured products.

We reserve the right to make changes to our products. Please visit the website for the latest features and specifications.

## UNDERSTANDING TERMS:

### Split color

The individual LED color is emitted from a portion of the light, not the full face of the light. The other portion is an alternate second LED color.

### Single, dual, tricolor

The individual LED color is emitted from the entire face light. The type of light (single, dual, tricolor) will determine how many different color LEDs are available in the unit. Only one color can be active at a time.

### Fascia light

A low profile light which attaches to the surface of a vehicle, such as the “fascia” or trim. It is intended to blend in as an extension of the vehicle.

### Fascia light mounting types

Stud Mount

Quick Mount

Screw Mount

### Light Sync

The ability to connect multiple lights to flash together or in alternating patterns.

### Sync 1

A sync technology implemented on SoundOff Signal’s early perimeter warning lights with 3-wire control interfaces (not to be confused with 3-wire data control). Can sync up to four lights.

### Sync 2

A sync technology implemented on SoundOff Signal’s newer perimeter warning lights with 4 or 5-wire control interfaces. Can sync up to twenty-four lights.

*The sync systems are not compatible with each other. Sync 1 lights can’t synchronize with Sync 2 lights or vice versa.*

### Stop/Tail/ Turn Light

A red LED light with a clear or red lens functioning with direct input from the vehicle’s standard wiring – no internal flasher. For mounting on the rear of the vehicle to indicate stop when brake pedal is applied (high output), tail running light (low output) and turn signal (intermittent high flash).

### Turn Light

A specific turn signal light either amber LED with amber or clear lens, or red LED with red or clear lens. This light can operate through the vehicle’s flasher or with an internal flasher which operates in a single flash or a sequential mode flash.

### 3-Wire Serialized Communication Network

Supported SoundOff perimeter lighting can be installed utilizing 3-wire architecture (power, ground and data), significantly simplifying installation while enhancing control capabilities. Our original solution (which is still available) utilizes a 5-wire configuration, requiring two to three separate programmable outputs from the bluePRINT® controller, which can be activated in various combinations to perform different actions. While effective, this approach limits scalability and increases installation complexity.

Learn more about the 3-wire network and compatible products

## PRODUCT FAMILIES

### Cutting-Edge Technology that has Transformed LED Lighting

SoundOff Signal's mpower silicone lighting technology is the first optic-grade, patented silicone lens that is virtually shatterproof, making it the most durable light in the market. This technology is a versatile, high-performance lighting system that is designed to be used in a wide range of applications from emergency vehicles to work trucks and anything in between. Feel empowered to get your job done safely and effectively.

### Indestructible Illumination

A key feature of the "squishy light," an industry-coined term based off the silicone material, is its moldable material that allows for the optic lens and housing to be an all-in-one piece, which improves the sealing, durability and optic output. The individual LED light modules make for flexible installations and customization. This high-quality silicone material is resistant to water, dust and other environmental factors that every industry faces daily, ensuring long-lasting performance and overall reduction in the total cost of ownership.

### mpower Stealth Lens

This lens uses a series of minuscule dots on our signature mpower silicone, creating a more discreet and stealthy appearance. A traditional tinted lens will significantly reduce light output, depending on the color of the tint, thickness of lens and color being transmitted. Stealth allows for the same effect of a tinted lens, but with minimal lost light output, regardless of configuration or color.

### Get the stealth look without sacrificing visibility

1. Creates a more discreet, stealthy appearance
2. Minimal lost light output compared to traditional tinted lens
3. Multiple configurations and colors available

## PRODUCT FAMILIES

### Advanced Lighting Built for Performance

nFORCE features high-performance, polycarbonate-based LED lighting solutions engineered for emergency and service vehicles. Designed with advanced reflector technology, nFORCE delivers powerful forward and off-angle illumination to maximize visibility and safety. With customizable single, dual or tricolor options, users can configure lighting to meet their operational and regulatory needs. From rooftop lightbars to surface, grille and recess mounts, nFORCE offers unmatched versatility to fit a wide range of vehicle setups.

### Sleek, Scalable and Ready for the Road

Purpose-built for all needs, nFORCE combines modern aesthetics with rugged reliability. With low-profile and compact design offerings, the nFORCE lineup easily scales across different vehicle types and configurations. Whether you're building out a fleet or upgrading existing equipment, nFORCE delivers lighting that commands attention and ensures safety on every call.

## PRODUCT FAMILIES

### nFUSE®

#### Illuminate with Precision

nFUSE offers lighting solutions that are engineered with traditional polycarbonate lenses and dual color functionality for effective and optimal light output. Choose from an array of configurations, like warning, stop/tail/turn, backup, scene, takedown and arrow for situation-smart lighting.

#### Dependable and Ready for Action

Built for the rigors of first-response work, nFUSE boasts rugged, reliable designs that scale to fit various vehicle configurations. From lightbars in single or dual levels to perimeter warning or scene lights, these offerings will unify your fleets appearance with a range of sizes, lens colors, LED colors and flash patterns. Whether enhancing situational awareness at an emergency site or lighting up a work zone, nFUSE combines resilience, customization and commanding brightness—built for safety, built for the job.

### bluePRINT®

#### Automated Warning Controls

The bluePRINT system is an intelligent, logic-driven control and lighting platform designed to deliver precision lighting for emergency, utility and public works fleets. This advanced solution enables users to create situation-specific warning profiles, offering complete control of multi-color bluePRINT-compatible lights across the vehicle. Built to adapt to any fleet application, bluePRINT is fully networked, programmable and highly configurable, ensuring your lighting responds dynamically to the needs of the moment.

#### Redefined Efficiency

bluePRINT goes beyond traditional lighting with voltage-controlled load shedding, a conditional matrix for smart decision-making and a plug-n-play CAN bus interface for seamless integration. It allows for real-time diagnostics and firmware updates, helping technicians maintain performance without pulling vehicles off the road. Whether outfitting a small municipal fleet or a large emergency response agency, bluePRINT delivers unmatched adaptability, efficiency and control.

## PRODUCT FAMILIES

### nROADS®

#### Designed For the Long Haul

nROADS is robust lighting solutions built for heavy-duty work. Featuring durable polycarbonate lenses and Class-certified modules, it delivers reliable dual-color warning and amber flood lighting designed for harsh environments. Whether mounted as compact beacons or midsize fleet lightbars, nROADS ensures clear visibility with 360° coverage, multiple flash patterns and optional lighting capabilities.

#### Versatile, Cost-Effective and Field-Ready

Tailored for snowplows, pickups, refuse trucks, roadside operations and more, nROADS delivers dependable performance with easy-to-use operations. These lightbars and beacons blend aesthetics with adaptability, offering various sizes and custom color configurations to suit fleet standards. nROADS offers a practical, high-impact lighting solution that balances durability, affordability and safety for mission-critical work zones.

# LIGHTBARS

## mpower® LIGHTBAR

Clear Lens w/ Silver Chassis      Stealth Lens w/ Black Chassis      Clear Lens w/ Black Chassis

Revolutionizing emergency lighting through durable silicone lenses in a sleek design

<b>Features:</b>	At 1" thick, the mpower Lightbar is thinner than its leading competitors
<b>LED Color Capabilities:</b>	Single, dual, tricolor
<b>LED Color Options:</b>	●, ●, ●, ●, ○
<b>Lens Color Options:</b>	Clear, Stealth
<b>Chassis Color Options:</b>	Silver, Black
<b>Dimensions(l):</b>	48" (122 cm), 55" (140 cm)
<b>Dimensions(h):</b>	1.1" (2.7 cm)
<b>Dimensions(d):</b>	10.6" (27 cm)
<b>Mounts:</b>	See page 15 for full list of compatible mounting options
<b>Certifications:</b>	SAE J595, SAE J845, CA Title 13, ECE R65, ECE R10, NFPA 1900*, KKK 1822-F*

## mpower® HORIZON INTERIOR LIGHTBAR

Defy the limits of ballistic glass

<b>Features:</b>	With the ability to transmit through ballistic glass, Horizon equips officers with bullet-resistant protection and increased visibility
<b>LED Color Capabilities:</b>	Single and dual color - 8 LEDs per color, tricolor - 6 LEDs per color, 2 white LEDs for the takedown function are included in all options
<b>LED Color Options:</b>	●, ●, ●, ●, ○
<b>Lens Color Options:</b>	Clear
<b>Dimensions(l):</b>	16.48" (41.86 cm) - per side
<b>Dimensions(h):</b>	2.26" (5.74 cm)
<b>Dimensions(d):</b>	3.46" (8.79 cm)
<b>Mounts:</b>	Attaches direct to glass via pre-installed buttons available from Custom Glass Solutions
<b>Certifications:</b>	Meets SAE J595, J845, CA Title 13 optically through glass

## nFUSE® LIGHTBAR

Single level, exterior lightbar with all the right features, including dual-color capability, at the right price

<b>Features:</b>	Customizable to your needs with multiple lengths and single or dual color capability
<b>LED Color Capabilities:</b>	Single, dual
<b>LED Color Options:</b>	●, ●, ●, ●, ○
<b>Lens Color Options:</b>	Varies based on configuration. Options are selectable using the product configurator
<b>Dimensions(l):</b>	36" (91cm), 42" (107 cm), 48" (122cm), 54" (137cm), 60" (152 cm), 72" (183 cm)
<b>Dimensions(h):</b>	2.28" (5.79 cm)
<b>Dimensions(d):</b>	12.35" (31.4 cm)
<b>Mounts:</b>	See page 15 for full list of compatible mounting options
<b>Certifications:</b>	SAE J595, SAE J845, CA Title 13, NFPA 1900, KKK 1822-F, ECE R10

## nFUSE® XL LIGHTBAR

A dual-level lightbar with 360-degrees of continuous light

<b>Features:</b>	Single or dual color capable on every module with independent upper and lower control
<b>LED Color Capabilities:</b>	Single, dual
<b>LED Color Options:</b>	●, ●, ●, ●, ○
<b>Lens Color Options:</b>	Varies based on configuration. Options are selectable using the product configurator
<b>Dimensions(l):</b>	24" (61cm), 36" (91 cm), 42" (107 cm), 48" (122cm), 54" (137cm), 60" (152 cm), 72" (183 cm)
<b>Dimensions(h):</b>	3.82" (9.7 cm)
<b>Dimensions(d):</b>	12.35" (31.4 cm)
<b>Mounts:</b>	See page 15 for full list of compatible mounting options
<b>Certifications:</b>	SAE J595, SAE J845, CA Title 13, NFPA 1900, KKK 1822-F, ECE R10

# PERIMETER LIGHTING

## mpower® FASCIA 3" & 4"

Patented silicone lens and optic design delivers advantages over conventional polycarbonate lenses

### mpower Facia Light

**Features:** Bright, versatile, compact and available in thousands of configurations

**LED Color Capabilities:** Single, dual, tricolor

**LED Color Options:**

**Lens Color Options:** Clear, Stealth (4" Facia only)

**Housing Color Options:** Black, White\*

**Light Sync:** Up to 24 lightheads (Sync 2)

**Flash Patterns:** 15+

**Mounts:** Quick, screw, stud

**Certifications:** SAE J595, SAE J845, CA Title 13, ECE R65, ECE R10, NFPA 1900, KKK 1822-F

*Bezels sold separately, but highly recommended unless recess mounted. See pages 49 - 52 for bezel and other accessory options*

*\*Stealth Lens option only available with black housing*

### mpower Facia 3" Light

**Number of LEDs Available:** 4, 8 – single, 8 – dual, 12 – tricolor

**Dimensions(l):** 3.04" (7.72 cm)

**Dimensions(h):** 0.92" (2.3 cm)

**Dimensions(d):** 0.42" (1 cm)

### mpower Facia 4" Light

**Number of LEDs Available:** 6, 8 – single, 12 – dual, 18 – tricolor

**Dimensions(l):** 4.04" (10.3 cm)

**Dimensions(h):** 0.92" (2.3 cm)

**Dimensions(d):** 0.42" (1 cm)

## mpower® FASCIA 4" SPOT

### mpower Facia 4" Spot Light

**Features:** Bright, versatile, compact and available in thousands of configurations

**LED Color Capabilities:** Single color

**LED Color Options:**

**Lens Color Options:** Clear

**Flash Patterns:** Steady burn only

**Mounts:** Screw mount only

**Certifications:** SAE J595, SAE J845, CA Title 13, ECE R65, ECE R10, NFPA 1900, KKK 1822-F

## mpower® FASCIA 4X2

Patented silicone lens and optic design that includes a harness with convenient removable connector

### mpower Facia 4x2 Light

**Features:** Bright, versatile, compact and available in thousands of configurations

**LED Color Capabilities:** Single, dual, tricolor

**LED Color Options:**

**Lens Color Options:** Clear

**Housing Color Options:** Black, White

**Number of LEDs Available:** 12, 16 – single, 24 – dual, 36 – tricolor

**Light Sync:** Up to 24 lightheads (Sync 2)

**Flash Patterns:** 15+

**Dimensions(l):** 4.07" (10.34 cm)

**Dimensions(h):** 1.5" (3.8 cm)

**Dimensions(d):** 0.43" (1.09 cm)

**Mounts:** Quick, screw, stud

**Certifications:** SAE J595, SAE J845, CA Title 13, ECE R65, ECE R10, NFPA 1900, KKK 1822-F

*Bezels sold separately, but highly recommended unless recess mounted. See pages 49 - 52 for bezel and other accessory options*

*Additional features and functions can be accessed when using ConfigureIT, see page 84 for more information*

## mpower® HD LIGHT

Versatile, compact and durable light

### mpower HD Light

Features:	Virtually indestructible when paired with the Universal Rock Bracket, making it preferred for extreme environments
LED Color Capabilities:	Single, dual, tricolor
LED Color Options:	●, ●, ●, ●, ○
Number of LEDs Available:	
Single Color	6, 8
Dual Color	12
Tricolor	18
Light Sync:	Up to 24 lightheads (Sync 2)
Flash Patterns:	15+
Dimensions(l):	4.25" (10.8 cm)
Dimensions(h):	0.92" (2.3 cm)
Dimensions(d):	0.6" (1.5 cm)
Mounts:	Quick or stud mount
Certifications:	SAE J595, SAE J845, CA Title 13, ECE R10, NFPA 1900, KKK-1822F

*Bezels sold separately, but highly recommended unless recess mounted. See pages 49 - 52 for bezel and other accessory options*

## mpower® THIRD BRAKE LIGHT BEZEL

Easy-to-mount third brake light housing for use with mpower® Fascia 4x2 Lights

### Part Number: PMPSABK005 (mpower® Fascia 4x2's sold separately)

Features:	Add (2) mpower® Fascia 4x2 lights to keep your vehicle seen from the rear in all elements
Fitment:	2015-2024 Ford F-150; 2017-2024 Ford Super Duty
Dimensions(l):	31.47" (79.93 cm)
Dimensions(h):	2.69" (6.83 cm)
Dimensions(d):	3.07" (7.8 cm)

Scan the QR code to configure product to your exact needs.

**WARNING:** Cancer and Reproductive Harm – [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## Four Corner Strobe Kit

Seamlessly mount this strobe kit behind the existing center high mounted stop light (CHMSL) for increased vehicle visibility

### Part Number: ET4CCL22EMB1, ET4CCL2FKB1, ET4CCL22FPB1

Features:	All brackets, mounting hardware, wiring and switches included
Fitment:	2017-2021 Ford F-150; 2017-2021 Ford Super Duty
Dimensions(l):	31.47" (79.93 cm)
Dimensions(h):	2.69" (6.83 cm)
Dimensions(d):	3.07" (7.8 cm)

## SL RUNNING LIGHT

An extremely versatile running light for added intersection safety

### SL Running Light

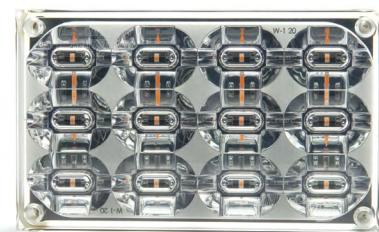

Features:	Can be used for rocker panels, push bumpers, tailgates, headache racks, brow lights and more. Now bluePRINT® compatible
LED Color Options:	●, ●, ●, ○
Light Sync:	Up to 8 SL running lights can be sync'd together
Flash Patterns:	Up to 69 flash patterns
Dimensions(l):	15" (38.1 cm), 50" (127 cm), 61.4" (156 cm), 72.8" (184.9 cm)
Dimensions(h):	1.09" (2.76 cm) (all lengths)
Dimensions(d):	0.75" (1.9 cm) (all lengths)
Mount:	Bracket mount, brackets sold separately
Certifications:	SAE J595, CA Title 13

## 9X7 POLE MOUNTS

High-intensity white illumination, perfect for a fire apparatus and ambulance, with an adapter for most pole fitment

### Features

- Adaptable for Any Scene:** Flexible positioning to provide optimal lighting coverage in any emergency scenario
- Rapid Deployment, When Every Second Counts:** Allows first responders to set up and position lights quickly and easily utilizing the rear grab handle without any specialized tools
- High-Powered Lighting Where It Matters Most:** Elevated and adjustable positioning maximizes light output and eliminates shadows, ensuring superior scene visibility
- Built Tough for Extreme Conditions:** Constructed with rugged materials, the kit withstands the harshest environments while maintaining peak performance

### Kit Includes:

- Scene light of your choice (mpower or nFUSE, 12V or 120V)
- Durable housing (white or black) and adapter to work with most pole lights in the industry
- A durable and easy to grab top handle
- On/off switch

\*Product does not include pole

### nFUSE® 9x7 P Scene

## nFORCE® SURFACE MOUNT LIGHT

Reliable, effective lighting solution with forward and off-angle illumination

### nFORCE Surface Mount

<b>Features:</b>	Separate control functionality and is sync compatible with nFORCE products
<b>LED Color Capabilities:</b>	Single, dual, split, tricolor
<b>LED Color Options:</b>	●, ●, ●, ●, ○
<b>Light Sync:</b>	Up to 24 lightheads (Sync 2)
<b>Flash Patterns:</b>	12 single, 14 dual, 14 tricolor
<b>Dimensions(l):</b>	5.0" (12.7 cm)
<b>Dimensions(h):</b>	1.72" (4.3 cm)
<b>Dimensions(d):</b>	1.50" (3.8 cm)
<b>Mounting:</b>	Surface mount
<b>Certifications:</b>	SAE J595, CA Title 13, EMC 72/245/EEC

## nFORCE® DECK/GRILLE LIGHT

Intense forward and off-angle illumination from your deck or grille

### nFORCE Deck/Grille Mounts

<b>Features:</b>	Sync 2 compatible with applicable products for synchronizing the flashing of multiple lights	
<b>LED Color Capabilities:</b>	Single, dual, tricolor	
<b>LED Color Options:</b>	●, ●, ●, ●, ○	
<b>Light Sync:</b>	Up to 24 lightheads (Sync 2)	
<b>Flash Patterns:</b>	12 single color, 14 dual, 14 tricolor	<b>Deck/Grille Mount, Single</b>
<b>Dimensions:</b>	<b>Deck/Grille Mount, Single</b>	<b>Deck/Grille Mount, Dual Side-by-Side</b>
<b>Dimensions(l):</b>	5.0" (12.7 cm)	9.50" (24.1 cm)
<b>Dimensions(h):</b>	1.88" (4.7 cm)	1.88" (4.7 cm)
<b>Dimensions(d):</b>	1.82 (4.3 cm)	1.82" (4.3 cm)
<b>Mounting:</b>	Deck/grille mount	
<b>Certifications:</b>	SAE J595, CA Title 13, ECE R10, EMC 72/245/EEC	

## nFORCE® RECESS MOUNT

Intense forward and off-angle illumination from a recess mount light

## nFORCE® OVAL RECESS MOUNT

### nFORCE LED Recess Mount Light, nFORCE 6" Oval Recess Mount Light

<b>Features:</b>	Secondary functions can be either flashing or steady-burn	
<b>LED Color Capabilities:</b>	Single, dual, split, tricolor (tricolor not available for 6" oval recess mount, but gasket is avail. separately)	
<b>LED Color Options:</b>	●, ●, ●, ●, ○	
<b>Light Sync:</b>	Up to 24 lightheads (Sync 2)	
<b>Flash Patterns:</b>	12 single, 14 dual, 14 tricolor patterns

## mpower® HIGH-POWERED WHITE LIGHTING

- High-powered, white lighting with hybrid optics designed for both spot and driving illumination
- Provides optimal illumination that doesn't take away from existing warning lighting
- Designed with mpower's durable silicone lens technology to meet the challenging needs of harsh environments and weather conditions, maintaining a long-lasting performance

### mpower® HP 2X1 KIT

#### 2x1

Raw Lumens:	1,382 lm
LUX @ 10m:	218.2 lux
Beam Distance @ 1 LUX:	148 m
Beam Distance @ .25 LUX:	295 m
LED Color Options:	○
Beam Pattern:	Hybrid 10° spot/flood beam pattern
Dimensions(l):	2.61" (6.6 cm)
Dimensions(h):	1.2" (3.0 cm)
Dimensions(d):	3.23" (8.2 cm)
IP Rating:	IP67

## mpower® HP 2X1 DUAL STACKED KIT

#### 2x1 Dual Stacked

Raw Lumens:	2,764 lm
LUX @ 10m:	398.8 lux
Beam Distance @ 1 LUX:	200 m
Beam Distance @ .25 LUX:	399 m
LED Color Options:	○
Beam Pattern:	Hybrid 10° spot/flood beam pattern
Dimensions(l):	2.61" (6.6 cm)
Dimensions(h):	2.33" (5.9 cm)
Dimensions(d):	3.23" (8.2 cm)
IP Rating:	IP67

### mpower® HP 6X1

#### 6x1

Raw Lumens:	4,146 lm
LUX @ 10m:	619.7 lux
Beam Distance @ 1 LUX:	249 m
Beam Distance @ .25 LUX:	498 m
LED Color Options:	○
Beam Pattern:	Hybrid 10° spot/flood beam pattern
Dimensions(l):	6.64" (16.9 cm)
Dimensions(h):	1.2" (3.0 cm)
Dimensions(d):	3.48" (8.8 cm)
IP Rating:	IP67

## mpower® 18" ORV LIGHTBAR

### 18" Lightbar

Raw Lumens:	12,438 lm
LUX @ 10m:	1,784 lux
Beam Distance @ 1 LUX:	422 m
Beam Distance @ .25 LUX:	845 m
LED Color Options:	○
Beam Pattern:	Hybrid 10° spot/flood beam pattern
Dimensions(l):	19.9" (50.55 cm)
Dimensions(h):	1.125" (2.86 cm)
Dimensions(d):	4.5" (11.43 cm)
IP Rating:	IP67

## mpower® 12" ORV LIGHTBAR

### 12" Lightbar

Raw Lumens:	8,292 lm
LUX @ 10m:	1,190 lux
Beam Distance @ 1 LUX:	345 m
Beam Distance @ .25 LUX:	690 m
LED Color Options:	○
Beam Pattern:	Hybrid 10° spot/flood beam pattern
Dimensions(l):	13.3" (33.78 cm)
Dimensions(h):	1.125" (2.86 cm)
Dimensions(d):	4.5" (11.43 cm)
IP Rating:	IP67

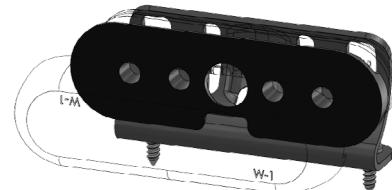

## mpower® 24" ORV LIGHTBAR

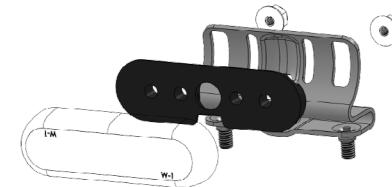

### 24" Lightbar

Raw Lumens:	16,584 lm
LUX @ 10m:	2,282 lux
Beam Distance @ 1 LUX:	478 m
Beam Distance @ .25 LUX:	955 m
LED Color Options:	○
Beam Pattern:	Hybrid 10° spot/flood beam pattern
Dimensions(l):	26.6" (67.56 cm)
Dimensions(h):	1.125" (2.86 cm)
Dimensions(d):	4.5" (11.43 cm)
IP Rating:	IP67

## nROADS® BEACON

A durable dome light with 360-degrees of intense lighting coverage and multi-color technology

<b>Features:</b>	Premium aluminum base with durable polycarbonate lens	
<b>Input Voltage Range</b>	10-16 VDC (standard), 9-32 VDC (configured)	
<b>LED Color Functionality:</b>	Single, dual, tricolor	
<b>LED Color Options:</b>	Yellow, Blue, Green, Red, Orange	
<b>Lens Color Options:</b>	Red, Orange, Yellow	
<b>Flash Patterns:</b>	44; 11 total scene, low power, and cruise modes	
<b>Light Sync:</b>	Up to 24 lightheads (supports Sync 2)	
<b>Dimensions:</b>	<b>Low Dome</b>	<b>High Dome</b>
<b>Dimensions(h):</b>	3.6" (9.25 cm)	5.3" (13.4 cm)
<b>Dimensions(dia.):</b>	8.6" (21.8 cm)	8.6" (21.8 cm)
<b>Mounts:</b>	Permanent mount, magnetic mount (magnetic includes 10 foot cigar plug cord with integrated 2-button rocker switch panel), 1" NPT pipe mount	
<b>Certifications:</b>	SAE J845, CA Title 13, NFPA 1900, KKK-1822-F	

Direct Wire configuration available with 4 programmable wired inputs

Four Button Cigar Plug Controller

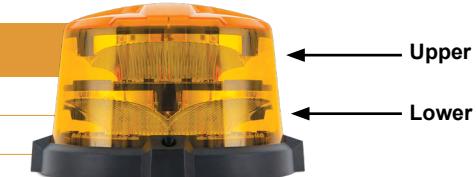

Standard Cigar Plug

### High Dome Beacon Styles

Single = Single LED color options for upper and lower

Split = Single or Dual LED color options for upper and lower

### Accessories

<b>Four Button Cigar Plug Controller</b>	Low and high dome	Configurator option
<b>VHB Magnetic Plate Adapter Kit</b>	Kit includes (1) one VHB pad and metal plate	PNRLBK03

Beacons sold separately

## nFORCE® nxt BEACON

Premium, unique design with 360-degrees of intense lighting coverage to replace your lightbar

<b>Features:</b>	Programmed for common functions including alley, takedown, reverse or scene
<b>Input Voltage Range</b>	10-32 VDC
<b>LED Color Options (Top):</b>	Blue, Red
<b>LED Color Options (Bottom):</b>	Blue or Red
<b>Lens Color Options:</b>	Blue or Red
<b>Dimensions:</b>	6.61" h x 11.36" dia
<b>Mounts:</b>	Surface Mount (flat gasket kit included, additional vehicle-specific kits sold separately)
<b>Certifications:</b>	SAE J595, SAE J845, ECE R10, NFPA 1900, KKK-1822-F

### Accessories

Dodge Durango 2021-25 Vehicle Gasket w/ Mounting Hardware	PNNBCVK003
Ford PIU 2021-25 Vehicle Gasket w/ Mounting Hardware	PNNBCVK002
Chevrolet Tahoe 2021-25 Vehicle Gasket w/ Mounting Hardware	PNNBCVK001

## FORD DUAL BEACON 360-DEGREE LIGHTING KIT

Get 360-degrees of light output for optimal visibility

<b>Features:</b>	Includes two single-color beacons, harnesses, side panel with switch and mounting hardware
<b>LED Color Functionality:</b>	Single color
<b>LED Color Options:</b>	Yellow, Blue, Green, Red, Orange
<b>Lens Color Options:</b>	Yellow, Orange
<b>Height Options:</b>	1.9" or 3.5" Beacon
<b>Model Years:</b>	2015-2020 & 2021-2022 F-150, 2017-2022 Super Duty

# CONTROL SYSTEMS TEAMS

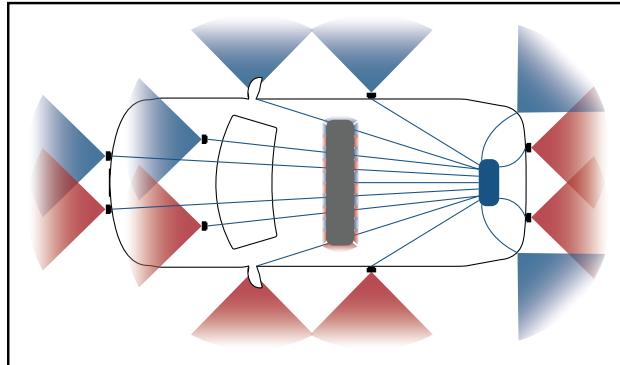

**Take total control of your warning system**

## BENEFITS AND FEATURES

- Intelligent control system
- Networked, programmable, logic-driven and adaptable
- Configurable to meet any fleet application or requirements
- Voltage controlled load shed and conditional matrix programming
- Create situational-specific warning profiles
- Complete control of multi-color bluePRINT®-compatible lights
- Offers a plug-n-play CAN bus interface (bluePRINT LINK®)
- Allows real-time diagnostics and firmware updates (SoundOff Central®)

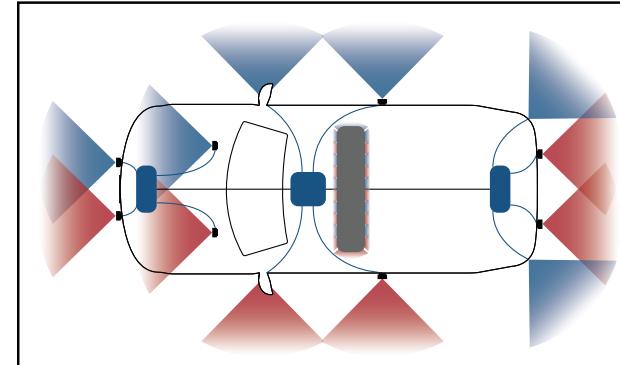

### Training Certification Required for bluePRINT Products

Due to the advanced capabilities of the bluePRINT system and its vast array of modules, a training course is required in order to operate this system for your specific needs. Contact your local sales representative for training opportunities.

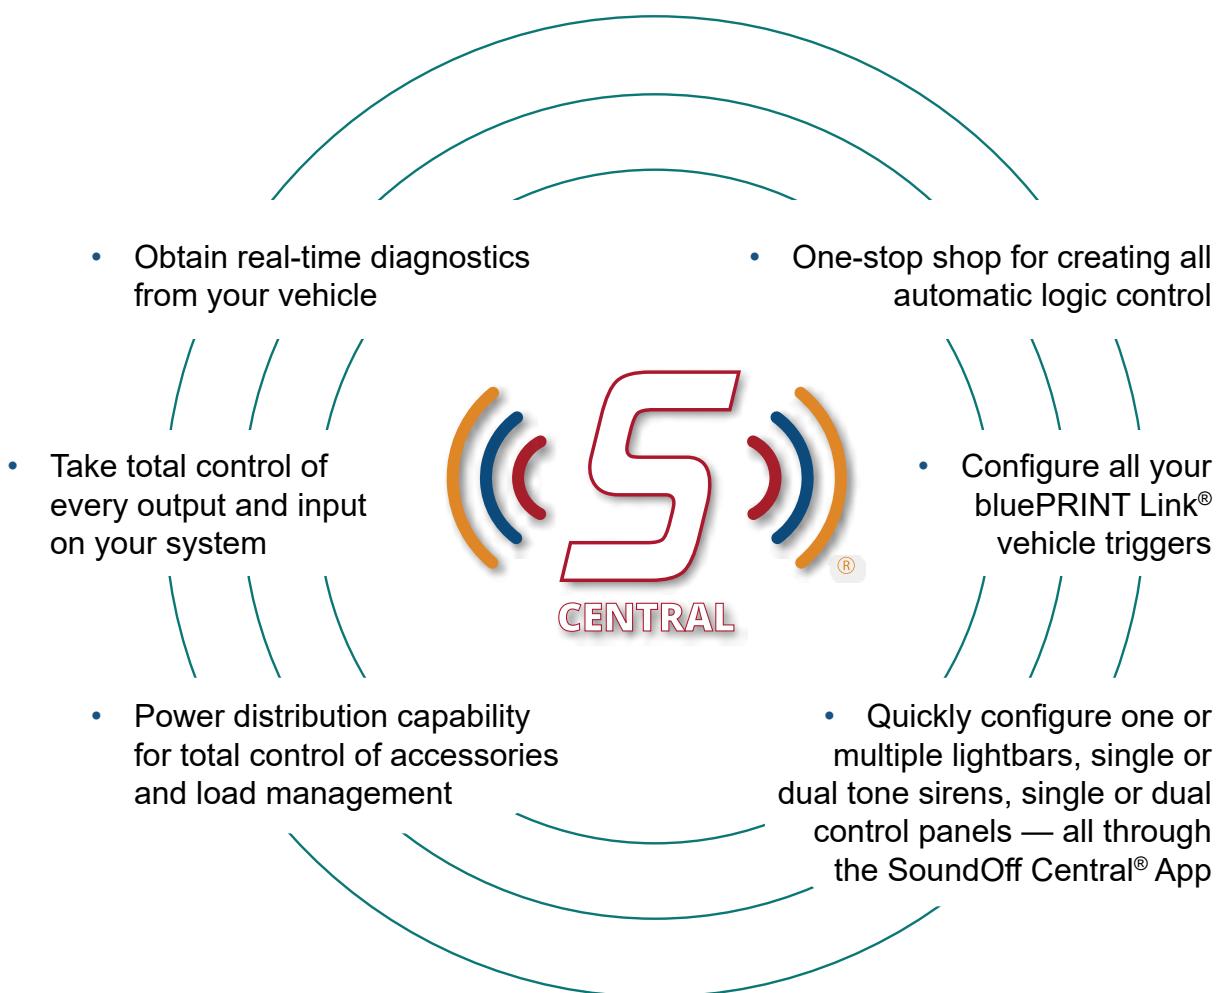

### Centralized Upfit

Emergency vehicle installations often centralize connections in the trunk or console resulting in extra wiring and installation time.

### Decentralized Upfit

bluePRINT replaces many of these connections with a multiplexed data bus that allows minimal wiring and ultimate flexibility. The lighting and siren become programmable and automated.

## bluePRINT® 500 SERIES CONTROL SYSTEM

Amplifier available with multiple control panel options

### Features

- **bluePRINT® System Controller:** Advanced control hub for integrated vehicle lighting and siren systems
- **Two Built-In Lightbar Channels:** Seamlessly manage lightbar configurations or 3-wire light arrays without the need for an external breakout box
- **Additional Expansion Lightbar Channel:** Expand your system with up to four universal breakout boxes—each supporting one lightbar or 3-wire array
- **15 Programmable Solid-State Flash Outputs:** Reliable and customizable output control
- **Five Configurable Relay Outputs:** Includes three 20-amp and two 10-amp circuits for flexible power distribution
- **Integrated 100 or 200-Watt Siren:** Supports mechanical siren tones for enhanced audio signaling
- **bluePRINT® Announce Messaging:** Internal and external public address capability\*
- **Golight® SL Control Support:** Operates up to two spotlight units per vehicle
- **Various Mount and Panel Options:** Flexible installation to suit your vehicle layout with multiple panel options to match your style
- **Eight Wired Inputs with PWM Support:** Four inputs compatible with pulse-width modulation for advanced control

\*In cabin messaging requires customer supplied cabin speaker

### NEW Built-in bluePRINT Link® Integration (optional)

- **Access to Expanded Vehicle Data:** Enables integration with a wide range of vehicle data parameters, including those not traditionally available through discrete wiring (e.g., engine coolant temperature, RPM, throttle pedal position and more)
- **Minimized Wire Splicing:** Reduces the need to tap into individual wire triggers, streamlining installation time and significantly improving long-term system reliability by minimizing potential wiring-related issues
- **Smart Automation via Data Triggers:** Vehicle parameters can be assigned as input triggers to automate lighting and system functions, enhancing situational responsiveness

\*Original bluePRINT Link® still available while supplies last

### 1) Choose Your Amp

100 Watt Remote Amplifier w/o Link	ENGSA5100
100 Watt Remote Amplifier w/ Link	ENGSA5101
200 Watt Remote Amplifier w/o Link	ENGSA5200
200 Watt Remote Amplifier w/ Link	ENGSA5201

Shown: 200 Watt Remote Amplifier w/ Link

### 2) Choose Your Control Panel

Push Button Siren Control w/ Mic	ENGCP18003
Rotary Knob Siren Control w/ Mic	ENGCP18004
Handheld w/ 5' Cord	ENGCP15001
Handheld w/ 25' Cord	ENGCP15002

Shown: Push Button w/ Mic

### 3) Choose Your Harness for Link Integration

Scan the QR code to visit the [bluePRINT 500 series product page](#) and view the complete list of available harness options

Shown: Dodge Durango Vehicle Harness

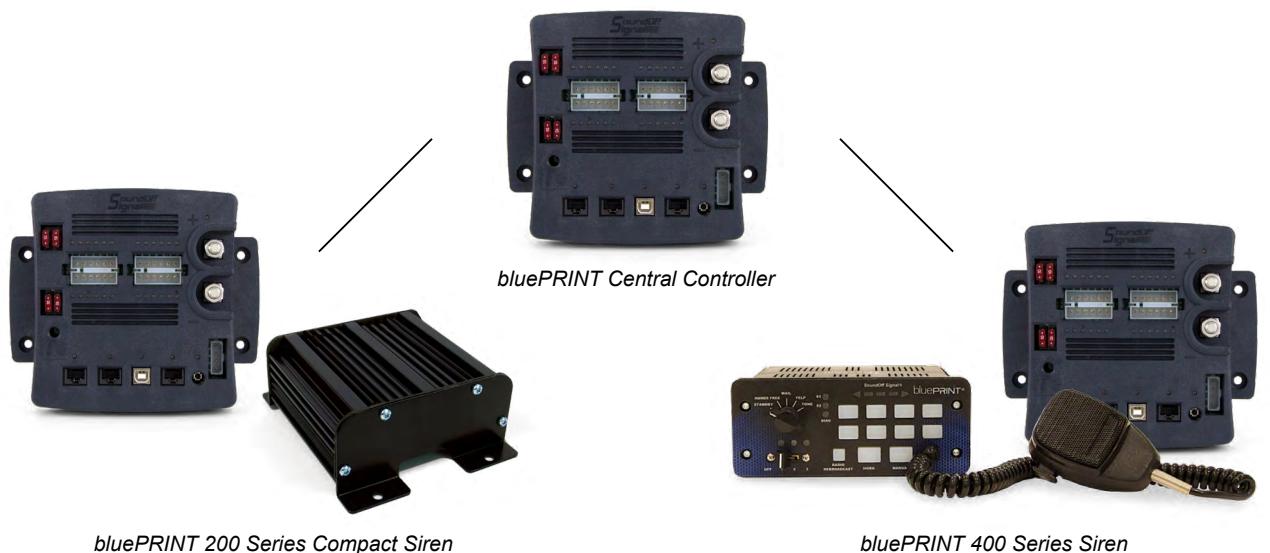

\*Link integration not available with Console Mount

\*\*If not utilizing Link, only amp and control panel selections are required to complete your system

\*\*\*Console mount versions of bluePRINT 500, without Link, are still available on [soundoffsignal.com](http://soundoffsignal.com)

### 4) Choose Add-Ons (See Page 67)

## bluePRINT® SYSTEM CONTROLLERS

bluePRINT Central Controller

bluePRINT 200 Series Compact Siren

bluePRINT 400 Series Siren

### bluePRINT Central Controller: ENGCC01244

- Controller for the bluePRINT system
- bluePRINT Central Controller requires the SoundOff Central® App
- Includes eight 10-amp solid state outputs and twelve 5-amp solid state outputs
- Compatible with bluePRINT 400 Series Siren

### bluePRINT 200 Series Compact Siren: ENGSA03021

- 58, 100 or 200-watt\* siren for single or dual speakers
- Compact and weather-resistant amplifier
- Connects directly to a bluePRINT Central Controller
- Includes park/kill and horn ring

\*second amplifier required for 200 Watt

### bluePRINT 400 Series Siren

- 100-watt siren available to power a single speaker or 200-watt siren with dual amplifiers to power two independent speakers
- Can drive a variety of programmable powered control lines capable of up to nine 10-amp and three 20-amp relay outputs
- Connects directly to a bluePRINT Central Controller
- SAE J1849, CA Title 13 (when used with SoundOff Signal speakers)

### Part Numbers

ENGSCR71(x)	Console Knob Control
ENGSCP71(x)	Console Button Control
ENGSA071(x)	Remote Siren (Amplifier Only)

### Replace (x) in the Part Number for Wattage Selection

52	200W
41	100W

### bluePRINT Handheld Control Panel: ENGCP15001

- Eight auxiliary buttons for one-touch operation and shift function\* for the ability to add another operation to each auxiliary button
- Three-position slide switch for convenient switching
- Connects directly to a bluePRINT Central Controller, 500 Series Control System or can be added as a second control panel in a bluePRINT system

\*Shift Function available for 500 Series Control System Only

## bluePRINT® ADD-ONS

### bluePRINT Remote Node: ENGND04102

- Expand bluePRINT's capabilities with four 10-amp solid state switchable outputs, six 5-amp solid state switchable outputs and four positive or negative activated inputs
- Programmable through SoundOff Central®
- Compatible with both bluePRINT Central Controller and bluePRINT 500 Series Control System

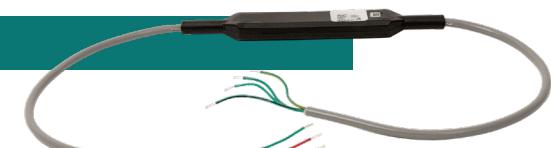

### bluePRINT Input Node: ENGND20001

- The Input Node provides 20 discrete wired inputs for bluePRINT
- Lightbar Breakout Boxes can be used as an Input Node
- Compatible with both bluePRINT Central Controller and bluePRINT 500 Series Control System

### 3-Wire Isolation Module: ENGHNK07

- Utilizing the powerful 3-wire serialized communication network reduces the number of remote nodes necessary in a vehicle build
- Prevent downtime of your vehicles and fleet
- Waterproof design to allow for installation under the hood

### bluePRINT Sync®

- bluePRINT Sync can be added to the bluePRINT® 500 Series Control System or Central Controller to provide warning system coordination between vehicles through the use of GPS timing
- Sync-equipped vehicles will automatically flash in unison when using the same pattern

**Hardware Requirements** Only a bluePRINT Central Controller or 500 Series Control System is required for use with bluePRINT Sync

**Software Requirements** SoundOff Central is required for system configuration. Central Controller firmware version 3.08 or higher

### Part Numbers

Module includes GPS Antenna	ENGSYMD01
Module without GPS Antenna	ENGSYMD02
GPS Antenna	ENGSYAT01

The City of Walker in Michigan uses **bluePRINT Sync®** in all of its police vehicles, multiple fire department vehicles, as well as many department of public works plow trucks.

The biggest reason we do this is **SAFETY**. It is not only safer for the drivers approaching our vehicles who may be blocking a road or on the edge of the road, but also safer for the people working around them day in and out. They are not blinded while working around the vehicle and because oncoming drivers can see the flash pattern in unison and not a glowing orb of light, they can focus on the traffic and the people working the scene.

*- Ben Willcome, Fleet Services Supervisor with City of Walker*

Photo: City of Walker Fleet with Department of Public Works, Police Department and Fire Department

Combining the expertise of SoundOff Signal and ACETECH, bluePRINT Connect<sup>®</sup> bridges the gap between emergency lighting and controls with telematics and connectivity.

**Connected fleet management system,  
improving safety and efficiency**

**Features**

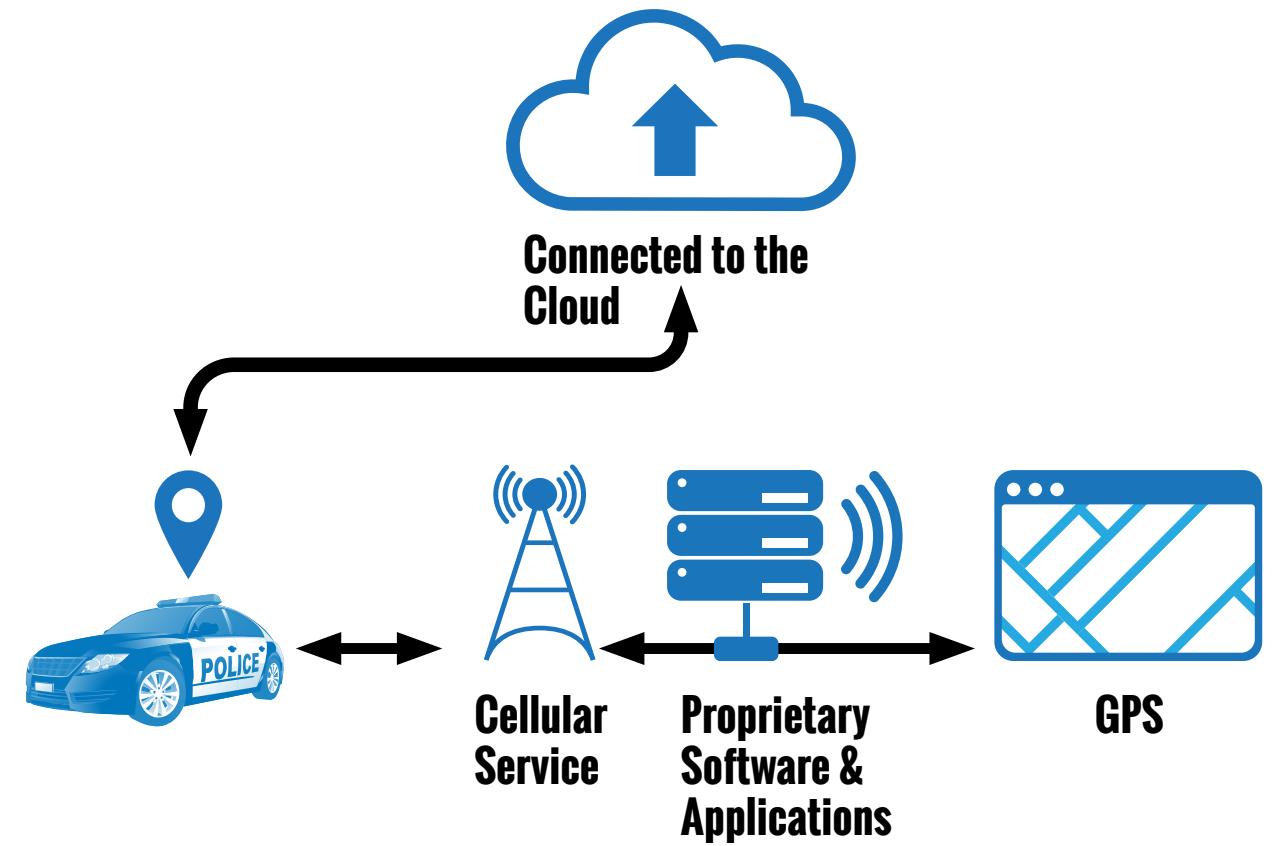

- Data empowerment:** Fleet journey reports, fleet operation reports and multi-vehicle replay, customized to fit your needs to make your fleet management more cost effective and efficient
- Live mapping:** Real time view of all connected fleet units and their locations
- Geofencing:** Users can receive notifications when a vehicle enters or leaves a defined area
- Fleet maintenance alerts and tracking:** Auto-alert for oil, brake changes and any other scheduled maintenance, based on mileage, time or engine hours, including Fuel Level notifications at critical level
- Driver coaching (Virtual FTO):** Safety system and scoring for speeding, seat belt, g-forces, with emergency mode overrides, including alerts based on vehicle operating conditions
- Vehicle life cycle modeling:** Predicts end-of-life for vehicles in a fleet (optional)
- Scene safety:** Real-time digital warning alerts delivered to approaching motorists when emergency crews are nearby through partnership with HAAS Alert Safety Cloud<sup>®</sup>
- Flexible data ownership:** Determine your own data ownership and management solution to fit your department needs
- Driver ID:** Always know who's driving each vehicle with individual, user key fobs (optional)

**Specifications**

<b>Voltage</b>	10-16 Vdc
<b>Current Draw</b>	150-200 mA (milli-Amps)
<b>Operating Temperature</b>	-40°C to +85°C / -40°F to +185°F
<b>Dimensions</b>	6" L x 6" H x 1.3" D (153 mm x 153 mm x 33 mm)
<b>Certifications</b>	R10

**Part Number**

ENGCNKT01

**Reduce collisions  
by 90%**

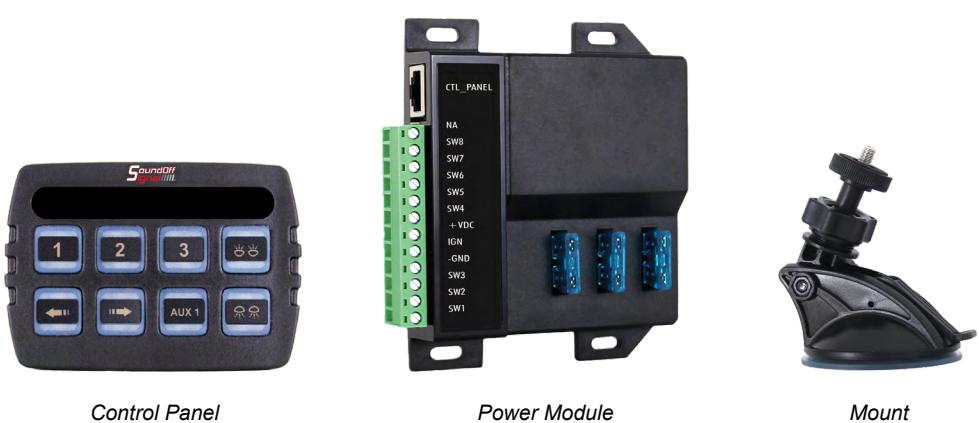

bluePRINT Connect uses a combination of cellular service, proprietary software, applications and GPS, which allows vehicles, equipment and other assets to connect to the cloud where it monitors and reports on numerous details about the vehicle.

Through easy integration to your bluePRINT Control System, bluePRINT Connect includes all necessary hardware to bring the vehicle online. Telematic and vehicle data is collected from the vehicle and sent to the cloud for remote viewing and reporting by fleet management.

With the ability to reduce preventable crashes by 90%\*, fuel consumption by 10%\* and maintenance expenses by 30%\*, this easy-to-install system improves safety and efficiency.

\*based on ACETECH customer base

Control Panel

Power Module

Mount

### Multi-purpose control panel with power module

Multi-purpose control panel w/ power module	ETCPMP801
Multi-purpose control panel w/ low-current harness (not shown)	ETCPMP802

### Features:

- Eight button programming and directional arrow function
- Eight switch control panel with three 10 amp and five 0.2 amp outputs for auxiliary device power or function activation (ETCPMP801)
- Eight switch control panel with three 0.2 amp and four 0.1 amp outputs for auxiliary device power or function activation (ETCPMP802)
- Backlit rubber touch buttons
- Suction mount bracket and hardware included

## 600 SERIES 6 FUNCTION SWITCH

### Part Number

600 Series Switch w/ 6 Functions: 6 Rocker Switches, includes Universal Bail Bracket - 12v ETSP6F

### Features:

- 6 mini rocker switches with red LED indicator ON lights
- Features a single 40 amp relay/circuit breaker with 5-20 amp fused switch output
- Includes Switch box with universal bracket, mounting hardware, switch labels and 18 pigtail with insulated quick connects for termination

Dimensions(l):

6.2" (16 cm)

Dimensions(h):

2.2" (5.6 cm)

Dimensions(d):

5.2" (13 cm)

## 900 SERIES 9 FUNCTION SWITCH

### Part Number

900 Series Switch w/ 9 Functions: 6 Rocker Switches & 3-position Progressive Slide Switch, includes Universal Bail Bracket - 12v ETSP9F

### Features:

- 9 functions: 3-position slide switch with 6 mini rocker switches
- Slide switch features 20 amps/output with LED indicator on light
- Includes switch box with universal bracket, mounting hardware, switch labels and 18 pigtail with insulated quick connects for termination

Dimensions(l):

6.2" (16 cm)

Dimensions(h):

2.2" (5.6 cm)

Dimensions(d):

5.2" (13 cm)

A close-up photograph of a red fire truck's emergency equipment. In the foreground, a large, dark grey speaker grille is prominently displayed, featuring the "SoundOff Signal" logo. Behind it, a red siren is mounted on a metal frame. The background is blurred, showing more of the fire truck's structure and equipment.

200 Watts ETSA482RSP

#### Knob

100 Watts ETSA481RSR

200 Watts ETSA482RSR

### Console

#### Button

100 Watts ETSA483CSP

200 Watts ETSA484CSP

#### Knob

100 Watts ETSA483CSR

200 Watts ETSA484CSR

\*Control panel on the console version is bolted to the front of the amplifier. Images of the rear used for visualization purposes only.

### Handheld

100 Watt ETSA461HPP

200 Watt ETSA462HPP

100 Watt (13' extended length control cable) ETSA461HPP-EXT

200 Watt (13' extended length control cable) ETSA462HPP-EXT

### Features

#### Remote, Console and Handheld Sirens

- 200-watt sirens feature dual-tone capability to deliver two siren tones at once to provide extreme "traffic moving" capability
- Designed with extra large buttons and adequate spacing to help reduce accidental button activation
- Control panel switches directly operate up to 12 relay outputs (three 20 amp and nine 10 amp)
- Built-in protection against over/under voltage, short circuit and reverse polarity
- Hands-free feature allows siren tones to be cycled or canceled by pressing the horn button when the horn-ring circuit is connected

Note: Two 100-watt speakers are required with the 200-watt version sirens

#### Remote Sirens

- Remote knob siren includes a removable microphone with quarter inch plug

#### Handheld Siren

- Control panel LED indicators for alley and arrow functions

#### Specifications

**Watts:** 100 and 200 Watts (2 speakers required with the 200 watt version sirens)

**Dimensions:** Control Panel Amplifier/Relay

**Dimensions(l):** 3.51" (8.92 cm) 2.62" (6.66 cm)

**Dimensions(h):** 6.98" (17.73 cm) 7" (17.80 cm)

**Dimensions(d):** 1.17" (2.98 cm) 6.51" (16.54 cm)

**Certifications:** SAE J1849, CA Title 13 (when used with SoundOff Signal speakers)

\*For service parts such as harness kits, replacement knobs, mounting brackets and more, visit [soundoffsignal.com](http://soundoffsignal.com)

**WARNING:** Cancer and Reproductive Harm – [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## FR100 SERIES SIREN

Part Number: ETSAFR100

### Features

- Full function siren for use with one or two 100-watt speakers
- Horn and manual button plus horn ring transfer input
- Large buttons and rotary knob for easy operation even with gloves
- Up to 24 selectable tones including dedicated mechanical tone button
- Hands-free operating mode

### Specifications

**Watts:** 200-watts

**Dimensions(l):** 6" (15.3 cm)

**Dimensions(h):** 2.14" (5.4 cm)

**Dimensions(d):** 6.14" (15.6 cm)

**Certifications:** SAE J1849, CA Title 13 (when used with SoundOff Signal speakers), ECE R10

## 200 SERIES COMPACT SIREN

### Compact

#### Remote Amplifier and Remote Switch Panel

100 Watt ETSA200R

Molex Connector and Mating Harness ETSA200RA

Delphi Connector and Mating Harness ETSA200RW

### Features

#### Compact

- Compact siren has a small, remote amplifier to fit tight spaces for undercover vehicles or motorcycles
- Class D technology with high speed digital switching provides higher efficiency, less current draw and increased reliability
- Operates a single 100 watt speaker or dual 58 watt speakers
- Choose from five warning tones (up to three tones can be activated) wail, yelp, piercer, hi-lo or super hi-lo, an additional four air horn tones available
- Horn ring (hands free operation) controls the tones and can be programmed to broadcast warning or air horn tones
- Park/kill feature disables the siren when the vehicle is placed in park
- Built-in protection against over/under voltage, over temperature, short circuit and reverse polarity
- Hermetically sealed, providing protection in wet areas

### Specifications

**Watts:** 58/100 Watts

**Dimensions(l):** 5.4" (13.7 cm)

**Dimensions(h):** 2.3" (5.8 cm)

**Dimensions(d):** 4.6" (11.6 cm)

**Certifications:** SAE J1849, CA Title 13 when used with SoundOff Signal speakers, ECE R10.05

## 100J SERIES SPEAKER

### 100J Series Speaker

- Composite housing creates electrical isolation from vehicle chassis to extend product life
- Glass reinforced nylon material will not corrode or rust
- Weather tested for passive water and moisture ingress
- Compact design with clear, powerful output using neodymium magnet and ferro-fluid filled coil
- 11 Ohms
- Includes universal bail bracket
- Meets SAE J1849 CA Title 13, Class A when used with SoundOff Signal siren amplifier

#### Dimensions:

**Without Bracket**

### Part Numbers

**Two-year warranty** ETSS100J

**Five-year warranty** ETSS100J5

### Speaker Cover

**Black** PSS100BK002

**Polished Stainless** PSS100BK003

### Many vehicle-specific speaker brackets available

#### Vehicles supported:

- Chevrolet Tahoe, Silverado
- Ford Police Interceptor Utility, F-150
- Dodge Durango, Charger
- And more

Visit our website or contact customer service for a full listing.

## LF AFTERSHOCK SIREN SYSTEM

### Siren System, Includes Universal Bracket

(1) 100 Watt Speaker, (1) 200 Watt Amplifier	ETSKLF101
(2) 100 Watt Speakers, (1) 200 Watt Amplifier	ETSKLF201

### Speaker, Includes Universal Bracket

(1) 100 Watt Speaker	ETSSLF100
----------------------	-----------

### LF Aftershock

- Sound waves produce deep warning tones, proven highly effective in traffic clearing
- Ideal for high traffic areas and busy intersections
- Vehicle-specific brackets available
- Available with one or two speakers to meet your specific needs
- Includes universal bracket and diagnostic indicator for troubleshooting
- Designed to plug-and-play with SoundOff Signal 400 and 500 series siren amplifiers

<b>Dimensions:</b>	<b>Siren Amplifier</b>
<b>Dimensions(l):</b>	5.83" (14.8 cm)
<b>Dimensions(h):</b>	1.73" (4.4 cm)
<b>Dimensions(d):</b>	3.7" (9.39 cm)

<b>Dimensions:</b>	<b>Speaker</b>
<b>Dimensions(h):</b>	8.5" (21.6 cm)
<b>Dimensions(dia):</b>	7.2" (18.4 cm)

### Many vehicle-specific speaker brackets available

#### Vehicles supported:

- Chevrolet Tahoe, Silverado
- Ford Police Interceptor Utility, F-150
- Dodge Durango, Charger
- And more

## 100U SERIES SPEAKER

### 100U Series Speaker

- Composite housing creates electrical isolation from vehicle chassis to extend product life
- Glass reinforced nylon material will not corrode or rust
- Weather tested for passive water and moisture ingress
- Compact design with clear, powerful output using neodymium magnet and ferro-fluid filled coil
- 11 Ohms
- Includes universal bail bracket
- Meets SAE J1849 CA Title 13, Class A when used with SoundOff Signal siren amplifier
- Complies with GSA contract requirements (FAR Clause)

Dimensions:	Without Bracket	With Bracket
Dimensions(l):	6.22" (15.8 cm)	6.9" (17.4 cm)
Dimensions(h):	6.22" (15.8 cm)	7.1" (18.1 cm)
Dimensions(d):	3.3" (8.6 cm)	3.3" (8.9 cm)
Watts:	100 Watts	

Shown with bail bracket

### Part Number

Five-year warranty ETSS100U

## 50M SPEAKER

### 50M Speaker

- Designed for extreme weather conditions and outdoor installation
- Solid and durable with high acoustic quality and wide coverage
- Versatile construction for various applications
- Sound frequency range of 500Hz to 10KHz
- Electrical impedance of 8Ω
- Housing made with high-quality ABS

### Dimensions:

Dimensions(d):	2.8" (7.1 cm)
Dimensions(dia):	3.3" (11.4 cm)
Watts:	50W (80W Peak)

### Part Number

50M Speaker ETSS050M

# ELECTRONICS

## Taillight Flasher

Flashback Alternating Taillight Flasher, Solid State ETTF001  
– 2.4 f.p.s.

Wire Harness, 18", black, for use with Taillight Flasher ETTFH001

Flasher Bypass Harness, 4", black, for system testing when the Taillight Flasher is removed ETTFH002

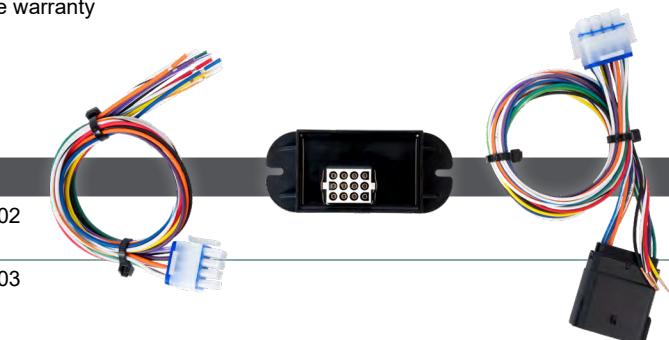

Wire Harness for Ford PIU, black, for use with Taillight Flasher ETTFH003

Wire Harness for Dodge Durango, for use with Taillight Flasher ETTFH004

- Alternating taillight flasher (flashback) with vehicle-specific connectors
- Added functionality of plug design allows for disconnecting, swapping or bypassing the flasher without any cutting or splicing of wiring
- Engineered for maximum visibility and protection, especially during the most critical moments on the job
- SoundOff is a trusted leader in flasher systems, having pioneered the first high-conspicuity, extreme-use wig-wag headlight flasher over 25 years ago and selling more flasher systems than all our competitors combined
- Unmatched technical support and industry-leading no-hassle warranty
- 5 amps per channel (4 channels plus 1 aux output)
- 2.4 FPS
- 9-16Vdc

## Taillight Flasher Kits

Taillight Flasher Kit, contains: Flashback Alternating Taillight Flasher & 18" Wire Harness ETTF002

Taillight Flasher Kit, contains: Flashback Alternating Taillight Flasher & Ford PIU Wire Harness ETTF003

Taillight Flasher Kit, contains: Flashback Alternating Taillight Flasher (ETTF001) & Dodge Durango Wire Harness (ETTFH004) ETTF004

## Opticom Preemption LED Module

Part Number EGTTE794H

- Provides emergency vehicle preemption to all intersections equipped with Opticom Infrared systems. Module generates a series of pulses in the infrared wavelength to allow preemption for emergency vehicles
- High efficiency LEDs require up to 90% less electrical power than conventional emitters, conserving power for other onboard emergency equipment. LED technology provides a higher level of consistent performance over the life of the emitter
- Built-in power supply simplifies installation
- Coded signal transmissions allow traffic officials to manage, track and control usage of the Opticom system and to block unauthorized vehicles from using it
- Visible indicator lights provide operational status and advanced diagnostic information

**WARNING:** Cancer and Reproductive Harm – [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## ConfigureIT System

Bluetooth Module with Harness ECTBM001

Bluetooth Module with 2020 Ford PIU Harness ECTBM003

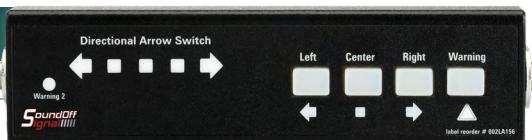

- Reduces install time and eliminates tapping of wires
- Connect an array of lights to the programmer at the same time then individually update flash patterns, colors, firmware and more for each of the lights (Intersector lights must be connected one at a time)
- Compatible with mpower®, nFUSE®, Intersector and Universal Undercover perimeter lights
- Easy to use—no training required
- Save and share custom or commonly used configurations to your mobile device

## WT100 Backup Alarm

Part Number ETBUALM03

- Weatherproof nylon housing and epoxy encapsulated circuit board provides durability and protection against moisture and dust
- Vibration resistant for heavy equipment usage
- Protected against voltage spikes and reverse polarity
- Universal mounting capability
- Perfect safety addition to work trucks, municipal fleets, utility vehicles, heavy construction equipment and more
- Connector can be removed for wired installation

## Directional Arrow Switch

Arrow Switch ETSWDAS01

- Activate directional communication functions at the touch of a button
- Two programmable warning modes
- LED's provide visual feedback of arrow functions
- Backlit buttons provide on/off feedback

## Ignition Security System

Part Number ETISS0-07+

- Easy to install and designed to be compatible with different vehicles
- Additional universal output provides normally open or normally closed contact for starter disable, gun lock disable, camera record, etc
- Allows the vehicle to stay running when the key is removed from the ignition switch
- Brake pedal and shift lever movement disables the ignition security system and stops the engine (sounds horn if connected)
- Automatic low voltage detection will activate the horn to provide notification of vehicle problems

# WORK AREA & INTERIOR LIGHTING

**obSERVE DOME LIGHT - 8"**

Effective interior lighting from a sleek, easy-to-install design

**Part Number: EBSDL0003-W**

Features: Snap-in spring clip design for tool-free installation

Dimensions(d): 0.94" (2.4 cm)

Dimensions(dia): 8.5" (21.5 cm)

**obSERVE DOME LIGHT - 6"**

Our most popular interior dome light with eye-strain reducing red night light

**Part Numbers: ECVDMLTAL00 & ECVDMLTALDC\***

Features: Offers a low amp draw and hours of long-lasting reliability with red and white light for nighttime illumination

Dimensions(d): 1.5" (3.8 cm)

Dimensions(dia): 6.2" (15.7 cm)

\*Specifically for Dodge Charger, Ford PI Sedan & Utility

**obSERVE+ DOME LIGHT - 3"**

White

Red/White

Blue/White

Flush Mount  
Grommet

Dynamic interior lighting in a compact design with dual color options

**Part Numbers: EBSDL0001-W (white), EBSDL0002-D (red/white), EBSDL0002-E (blue/white) & PBSDLGM01 (grommet)**

Features: Dual color with individual control and soft on/off

Dimensions(d): 0.4" (1.0 cm)

Dimensions(dia): 3.2" (8.2 cm)

**WARNING:** Cancer and Reproductive Harm – [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

**CALISTO**

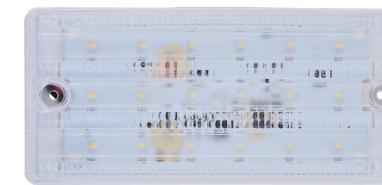

Sleek and compact interior light with a wide range of applications

**Part Number: EWLPT001**

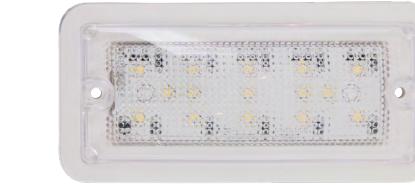

Features: High intensity light source offering lighting solution for multiple applications

Dimensions(d): 2.3" (5.84 cm)

Dimensions(dia): 2.3" (5.84 cm)

**DOME LIGHT - RECTANGULAR**

7x3

6x3

Compact, interior lighting

**Part Numbers: ECVMLTST2 (7x3), ECVMLTST4 (6x3 white base) & ECVMLTST4G (6x3 grey base)**

Features: Designed for a sleek finish and minimal impact to vehicle's ceiling

Dimensions(l): 5.83" or 7.03" (14.8 or 17.86 cm)

Dimensions(w): 2.8" (7.1 cm)

Dimensions(h): 0.77" (1.96 cm)

**NOVALUX**

Surface Mount

Recess Mount

A low-profile light designed to fit on any service vehicle

**Part Numbers: EWLPT003 (Surface) & EWLPT002 (Recess)**

Features: Designed for a sleek finish and minimal impact to vehicle's ceiling

Surface      Recess

Dimensions(l): 4.2" (10.67 cm)      4.7" (11.94 cm)

Dimensions(w): 1.7" (4.32 cm)      2.2" (5.59 cm)

Dimensions(h): 0.6" (1.52 cm)      0.1" (0.25 cm)

**LED STRIP LIGHT**

LED Strip Light

LED 90 Degree Corner Mount Strip Light

Versatile and durable solution for interior lighting needs

**Part Number: ECVCSMLED (Strip Light)  
ECVCSLLED10, ECVCSLLED21, ECVCSLLED43**

Features: Specially engineered Fresnel lens to boost light output and brightness

ECVCSMLED      ECVCSLLED\* (10, 21 & 43)

Lengths Available: 12" (30.48 cm)      10", 21", 43" (25.4 cm, 53.34 cm, 109.22 cm)

**WARNING:** Cancer and Reproductive Harm – [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## BANKSMAN BM3

Lighting designed for the chassis area of trucks, trailers, fire apparatus and ambulances

**Part Number: EWLPT004**

Features: Intense lumen output and lighting spread, creating a safer working environment

Dimensions(l): 7.48" (19.0 cm)

Dimensions(h): 3.05" (7.75 cm)

Dimensions(d): 0.93" (2.35 cm)

## PAR 36 WORK LIGHT

A bright work light, built to withstand water, dust and shock in demanding environments

**Par 36 Work Light**

Features: Intense and bright, built for demanding environments

Dimensions(l): 4.5" (10 cm)

Dimensions(h): 5.7" (14 cm)

Dimensions(dia.): 2.8" (6.4 cm)

### Lumens

500 lumen EWL A0500DBDF0W

1000 lumen EWL A1000DBDF0W

1400 lumen EWL B1400DBDF0W

## SCENELITE S17

A work light engineered with unique curved lighting projection for brighter work environments

**Part Number: EWLPT005**

Features: Improved light distribution for a safer working environment

Dimensions(l): 9.05" (23.0 cm)

Dimensions(h): 2.48" (6.3 cm)

Dimensions(d): 1.42" (3.6 cm)

**WARNING:** Cancer and Reproductive Harm – [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## CORE VALUES

- Build Trust ■ Live Excellence
- Customer Service ■ Innovation

## OUR MISSION

Your safety is our mission.

SoundOff Signal strives to be the industry leader in innovative vehicle lighting and controls.

## WHAT WE DO

Our team of engineers bring a robust suite of disciplines and expertise to our design and manufacturing process. Every product is specifically engineered for effective communication, and tested for endurance in the face of sun, heat, water, salt, force and corrosion to ensure long-lasting performance in high pressure situations.

## WHO WE ARE

We are a proud global company with local roots. Our nearly 300,000 square-foot facilities in Hudsonville, MI are home to all of our operations, and we play an active role in the community. Many of our employees are former first responders and are passionate about crafting products that make life better for those serving the community.
